## GREAT MYSTERIES OF LIFE AND SOUND

*Sound is everything, it is both the visible and invisible, audible and inaudible.  
Life is the alchemy of frequencies – the resonance of all (sonic endowments).*

The workshops and courses of the Veduna School help to identify and solve the causes of our problems and difficulties, the consequences of destructive thoughts and emotions. They offer tools for the elimination of imbalance and pain in our lives. Through initiations, intensive courses, the exceptional (cosmic) light-sound surgery and the light-sound codes of cosmic resonance, participants activate (self-)harmonisation and (self-)healing, and awaken their dormant abilities. They restore their awakened wholeness. This is in fact the very essence of our life's seeking. **Mira Omerzel - Mirit**, whose PhD is in ethnomusicological sciences, is a musician, energy-sound therapist, spiritual teacher, **medium**, writer and keeper of the ancient wisdom and knowledge. She has been researching these topics for almost **50 years**. Mirit is a **pioneer** in the exploration of the dimensions and **power of sound**, and of the forgotten spiritual **wisdom of different civilisations**, especially **Slavic**. She is the founder of the **Veduna School** and the **Vedun Ensemble** (previously **Trutamora Slovenica**). Her son, **Tine Omerzel Terlep**, an engineering graduate and **sound therapist-medium**, continues her work. The members of the Vedun Ensemble work with their voices and with unusual, mostly **forgotten instruments** of various spiritual traditions of the world. By channelling **life energy**, they **harmonise people and the world** during their courses and concerts, as well as through their CD albums.

**1. COSMIC ENERGY-SOUND SURGERY (1<sup>st</sup> and 2<sup>nd</sup> Thursdays in the month) / The exceptional, globally rare cosmic sound-energy surgery is performed by the mediums Dr Mira Omerzel - Mirit and Tine Omerzel Terlep, MEng (with the help of the Vedun Ensemble). Mirit and Tine are mediums for the transmission of Universal Life Energy into the material world. They channel gifts of frequency-sound vibrations which people need for their balance. They draw them from the Source of Life, from the Universal Intelligence, or the so called "cosmic soup" – the symphony of frequencies. Now also with the help of the ancient Slavic *trojak*, a transformer of energy.**

Surgery is carried out at **all levels of body and spirit**. It **dissolves emotional-mental blockages** and, as a consequence, puts our physical body into harmony. It eliminates the destructive **effects of stress** and anxiety and **accelerates our spiritual growth**, enabling the reception of **clear thoughts, insights and visions** that are necessary for our daily life. It is recommended that you take part in **at least four consecutive surgeries**.

**2. COURSES / INTENSIVOS (every 2<sup>nd</sup> Saturday in the month) Spiritual wisdom of the Slavs, ancient Slovenes and other cultures / This cycle of courses is an initiation journey across the 9 levels of consciousness, reality and of the power of transformation. The knowledge and practice of the ancient wisdom (of Native Americans, Siberians, Hawaiians, Tibetans, Australian Aborigines, Egyptians, Greeks, Celts, Slavs, Indians,**

Brazilians, Filipinos, Balinese people etc.) unveils an awareness of **the laws of life and existence, and offers effective ways of restoring balance, peace and abundance**. A special emphasis is put on the **Slovene and Slavic spiritual heritages**, on the forgotten and overlooked, yet **miraculous Mysteries of life** of the past – for the future. Every year, Mirit and the Ensemble hold a renewal retreat in the mountains and a ten day dry fast by the sea.

**3. VEDUNA COSMIC RESONANCE (Dates for are published separately.)** / This is a multi-level and multi-year cycle (**4 basic and 12 advanced levels, or initiations**). It is a cycle for **attuning** our physical and etheric bodies and consciousness, or soul, **to the Source of life** (by means of **light-sound keys, or codes**). Resonance enables us to become aware and to **solve our problems** quickly, it brings beneficial **all-connectedness and the transmission of the harmonising (healing) life energy, which is needed to restore our own harmony**. Participants receive ‘tools’ with which to work on themselves and help others.

**4. VEDUNA COSMIC AND GALACTIC INITIATIONS (Every third Thursday in the month)** / Initiations bring into people's lives beneficial frequencies – **energies and vibrations, which people need for balance, self-awareness and joy**. We are usually unable to attain these vibrational qualities by ourselves. **Mirit and Tine channel the planetary and stellar frequency-sound waves of the Pleiades, Orion, Galactic Centre, Sirius, Kryon, Gemini, Draco, Ophiuchus, Cygnus, Vega, Arcturus, Ursa Major etc.** Cosmic and galactic initiations are, just like the **cosmic sound-energy surgery, a rarity in the world. They form a part of our spiritual anatomy and complement the cosmic-Earth surgery.**

**5. CONCERTS AND CDS OF THE VEDUN ENSEMBLE** / They are **artistic-therapeutic creations and distinct rituals**. Their **sound-energy yarn** (channelled in a **shamanic semi-trance**) creates a special experience. The Ensemble's **pioneer work returns to music its sacredness** and is rare in the world. The musician-therapists bestow upon the audience **harmonising sound images and keys, harmonies and rhythms for calming down, which relaxes deeply and expands our consciousness**. Their concerts and audio-visual creations feature rich explanations and Mirit's interpretations of the sound images (booklets in Slovene and English are included).

**6. BOOKS BY DR MIRA OMERZEL - MIRIT (the Cosmic Telepathy series, Sound Images of the Awakened Love, Journey to the Summit of the Sacred Mountain, Elfin Thread of the Sound Yarn etc.)** / In her books, Mirit reveals **wisdom beyond thought and audible sound, the knowledge of the past for the future**. She uses words to explain the long **forgotten knowledge of different cultures**, she speaks of the laws of life and survival and of the essence of sound. She also describes the experiences and trials of her spiritual journey, as well as her important and valuable experiences **among wise healers, priests and shamans of different peoples**. In her stories, **fairy tales and spiritual messages put into poems** (including oracle poems),

**the reader is guided through the Great Mysteries of Life** in an artistic and metaphoric manner. In all her books, mostly **channelled** according a cosmic dictation, the author provides food for thought concerning **the wisdom of the past**.

**BRING WHITE CLOTHING, A MAT AND A BLANKET TO THE SESSIONS.**
